New Topo View

Will perform topological sort

List:

Double-click to create new vertex.
 Drag from vertex to vertex to create edge.
 New clears an old graph.
 Topo carries out topological sort.
 View toggles between graph and adjacency matrix.

New Topo View

Will remove vertex H

List:

Double-click to create new vertex.
 Drag from vertex to vertex to create edge.
 New clears an old graph.
 Topo carries out topological sort.
 View toggles between graph and adjacency matrix.

New Topo View

Added vertex H at start of sorted list

List H

Double-click to create new vertex.
Drag from vertex to vertex to create edge.
New clears an old graph.
Topo carries out topological sort.
View toggles between graph and adjacency matrix.

New Topo View

Will remove vertex F

List H

Double-click to create new vertex.
Drag from vertex to vertex to create edge.
New clears an old graph.
Topo carries out topological sort.
View toggles between graph and adjacency matrix.

New Topo View

Will remove vertex C

List: F H

Double-click to create new vertex.
 Drag from vertex to vertex to create edge.
 New clears an old graph.
 Topo carries out topological sort.
 View toggles between graph and adjacency matrix.
